

## Axiom by Formica®

The Axiom by Formica® collection offers the most comprehensive range of laminate, solid surfacing and solid wood worktops, splashbacks, breakfast bars and upstands in the UK and Ireland. The Axiom by Formica range has established itself as the leading choice for kitchen designers, planners and home renovators.

The Axiom® range of worktops, splashbacks and upstands and the laminate used in the construction of these products are manufactured by Formica Limited in the UK. The company has two manufacturing plants in the North East of England and the main factory at North Shields has been in operation since 1946.

The Axiom range contains an extensive collection of designs to suit all tastes and also includes a premium range, Axiom Signature, which offers solid wood, solid surfacing and top-end textured laminate options.

In addition to worktops, Axiom by Formica also offers matching and coordinating splashbacks, upstands and breakfast bars.
